

Kumudini Women's Medical College

A photograph of the entrance to Kumudini Women's Medical College. The building is a modern, light-colored structure with a covered entrance area supported by white columns. A sign above the entrance reads 'KUMUDINI WOMEN'S MEDICAL COLLEGE'. Several students in white lab coats and uniforms are standing in front of the entrance. The image is framed by large, abstract geometric shapes in teal and yellow.

KUMUDINI WOMEN'S MEDICAL COLLEGE

PROSPECTUS

Location of Kumudini Women's Medical College

Kumudini Women's Medical College and its affiliated Kumudini Hospital, located in a calm and quiet area on the bank of river Louhajong in Mirzapur of Tangail district, Bangladesh. It is approximately 70 km north-west of the capital city of Dhaka and is connected with road and railway communication.

Rai Bahadur Ranada Prasad Shaha

The Founder of Kumudini Welfare Trust of Bengal (BD) Ltd.

Date of Birth : 15 November, 1896 Date of Abduction : 7 May, 1971

Founder of Kumudini Welfare Trust of Bengal (BD) Ltd.

Rai Bahadur Ranada Prasad Shaha

A Man Who Lived His Dream

Rai Bahadur Ranada Prasad Shaha was a true son of this soil, a man extraordinaire, whose life's work and achievements are beyond comparison. Not only did he sacrifice his life for his beloved country but his legacy - Kumudini Welfare Trust of Bengal (KWT) - stands as the highest form of philanthropy. The Trust was founded in June 1947 with the mission of providing exclusive service to the suffering humanity.

A great visionary, he was indeed concerned about the well being of the poor and specially the underprivileged women. He bequeathed all his wealth for the welfare of the less fortunate. What prompted him to undertake this initiative was his childhood experience of his mother's death and his love for humanity. R P Shaha was born in 1896 to Debendra Kumar and Srimati Kumudini. He was only seven years old when his mother died a painful death from tetanus infection.

The death of his mother left a profound impact on the young mind of R P Shaha. He made a promise that if his fate permitted, he would do something for the ailing mothers and women. After his mother's death, his father remarried leaving him restless and yearning for motherly care and attention. In this situation he was sent to Kishoreganj to stay with his maternal uncle. He spent his adolescence there, where his formal education could not go beyond the first few years in elementary school. Young R P Shaha ran away from home and began a new life in Calcutta selling newspapers at Howrah Railway Station and working as a canteen boy. He also joined the Swadeshi Movement against the British occupation and that landed him in jail for some time.

When the First World War broke out, he enlisted in the Bengal Ambulance Corps of the British Indian Army as a soldier and was sent to Mesopotamia in present day Iraq. There he performed his duties with distinction earning a medal and citation from King George the Fifth. He also received a gallantry award for saving some British officers from fire in their camps. Later on he was awarded the Viceroy's Commission.

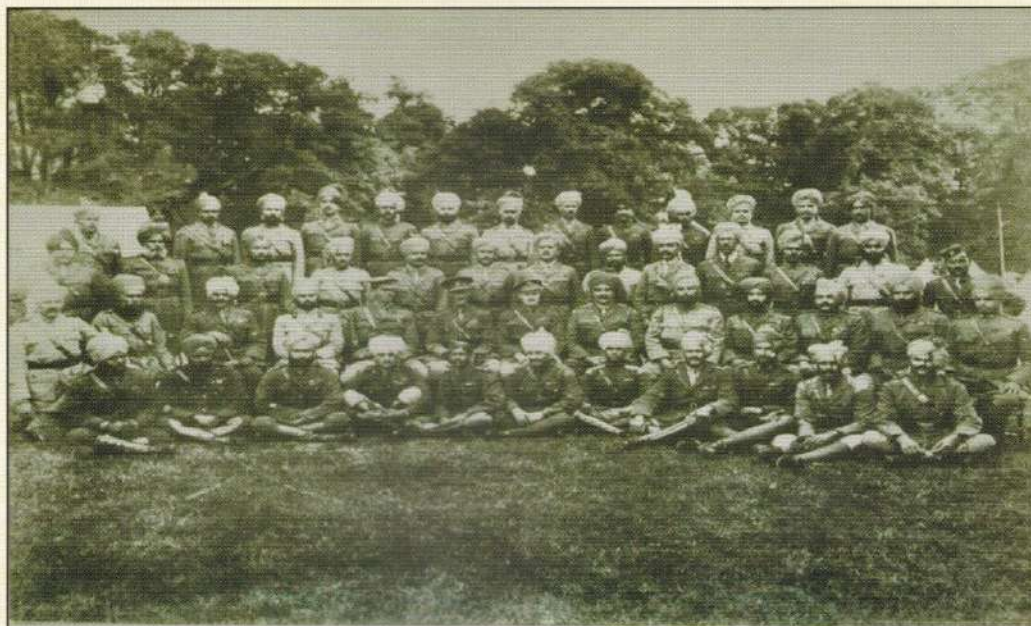

Returning to Calcutta he took up trading in coal, starting with door - to - door coal supply and gradually progressed to large supply orders. Thus a wealthy Ranada Prasad Shaha was born through sheer hard work and perseverance. In 1933 he became a share holder in a joint river transportation business named "Bengal River Service". Later on he bought the firm. This was the core business of all commercial ventures. By 1945, R P Shaha had already acquired the entire

jute business of the Scottish firm George Henderson & Company at Narayanganj which was previously owned by an English firm named David & Company.

In 1938, R P Shaha set up a dispensary with outdoor facilities at his village home. It was named after his grandmother Srimati Shova Sundari. On July 27, 1944 the then Governor of Bengal, Lord Richard G Casey inaugurated a 750 bed hospital in Mirzapur which is now a 1050 bed hospital. This free hospital was named Kumudini Hospital. R P Shaha strongly believed that the foremost requirement to achieve women's freedom and establish their rights was healthcare and education. He established an impressive institution Bharateswari Homes for girls' at Mirzapur. He also founded Kumudini Girls' College at Tangail and Debendra College at Manikganj.

In July 1944 he donated an amount of Rs. 2,50,000/- to the British Red Cross Appeal Fund. In the early fifties he financed construction of the Maternity Ward of Combined Military Hospital (CMH) in Dhaka. This great philanthropist was abducted along with his son Bhabani Prasad Shaha by the Pakistan Army and their collaborators on May 7, 1971 during the Liberation War and they never returned. His spirit lives among his successors who are on the Board of Directors of the Trust. R P Shaha was the first Managing Director succeeded by his daughter Joya Pati. His grandson Rajiv Prasad Shaha is the present Managing Director of the Trust and the tradition goes on. Huseyn Shaheed Suhrawardy, the former Prime Minister of Pakistan on a visit to Kumudini Complex at Mirzapur in the mid fifties wrote in the visitor's book: *"A poor man became a millionaire, and the millionaire voluntarily became a poor man, spending his all in the service of humanity, for the suffering and the distressed, for the furtherance of education, for rendering a service to the State, which the State itself has not undertaken. But is the Rai Bahadur poor; he is rich in the esteem, in the affection, in the love of a grateful people; having giving all his worldly possession, he has obtained more than those who were his compeers. May that State and the people he has served so will give him that recognition which is his due, and not destroy the great institution he has built with such love and devotion."*

R P Shaha along with members of Bengal Ambulance Corps during World War 1

Kumudini Women's Medical College (KWMC)

Kumudini Women's Medical College (KWMC) was established within the umbrella of Kumudini Welfare Trust in 2001. The aim is to materialize the dream of the founder by enrolling enthusiastic, dedicated and academically gifted female students who would pursue education which meet their needs and respond to the demand and opportunities of medicine, science, ethics and public policy. KWMC therefore recruits academically outstanding and culturally diverse students from Bangladesh and beyond. The college creates a rich supportive environment in which all students can attain their educational goals.

The college is committed to providing excellent medical education programs that produce skilled, compassionate and caring physicians who are proficient in the science and art of medicine, dedicated to the ethical and social principles of the profession and committed to a lifetime of continued learning.

Goal

The goal of the college is to provide an excellent broad based education with a focus on professional development for the students to equip them with knowledge, skill and attitude necessary not only to address the priority of community but also to acquire a firm basis for future training and studies in medical science.

Objectives

The Key objectives include:

- To produce competent, committed and caring female medical and dental graduates who will be willing to serve the community and at the same time acquire a firm basis for overcoming the shortage of doctors in the country.
- To provide with more practical knowledge about the basic health care and to inculcate the spirit of dedication in medical service so that they devote themselves to the service of the distressed people in the country and beyond.
- To promote widespread spirit in medical students so that they are motivated for a complete devotion towards growth and development in knowledge skills and attitude including attainments in higher studies, research and excellence.

Affiliations of the Medical College:

Kumudini Women's Medical College has been accorded:

- Permission by the Ministry of Health & Family Welfare, Govt. of the People's Republic of Bangladesh and Affiliation by the University of Dhaka.
- Recognition by the Bangladesh Medical & Dental Council (BM & DC).
- Listing on International Medical Education Directory- FAIMER, USA, which will enable our
- graduates to appear at international competitive entrance examination abroad.

College Campus

The college campus constitutes a major area of the 'Kumudini Complex' - the campus of the Kumudini Welfare Trust at Mirzapur with 110 acres of land and greeneries.

Bird's eye view of Kumudini Complex, Mirzapur

The campus includes:

- Medical College Building
- Hospital Building
- Hostel Buildings (6 multistoried hostels)
- Student Mess and Canteen with a separate Dining for International students
- Accommodation for Academic and Clinical Staff

The college building is about 500 feet long two-storied structure having a surface area of 50,000 square feet seated adjacent to the main hospital building. The building has three blocks organized to accommodate various college components as follows:

College Building: Block-A

Ground Floor

- Principal's Office
- Administrative Office
- Conference Room
- Office of Vice Principal
- Department Biochemistry
- Office of Quality Assurance scheme in Medical Education
- Tutorial Class Rooms
- Anatomy Dissection Hall
- Anatomy Museum
- Anatomy Demonstration Rooms

First Floor

- Library and Reading Room
- Computer Section for Students & Teachers
- Auditorium
- Students' Cafeteria and Teachers' Lounge
- Physiology Practical Room
- Biochemistry Practical Room
- Barrister Showkat Ali Lecture Hall -I
- Barrister Showkat Ali Lecture Hall -II
- Students' Common Room

College Building: Block-B

Ground Floor

- Department of Anatomy
- Department of Physiology
- Department of Community Medicine
- Lecturers' Rooms
- Histology Practical Room
- Tutorial Class Rooms
- Community Medicine Museum
- Lecturer Gallery- Janda Hall

First Floor

- Department of Forensic Medicine & Toxicology
- Department of Pharmacology
- Department of Pathology
- Department of Microbiology
- Pathology Laboratory
- Microbiology Laboratory
- Tutorial Rooms
- Lecturers' Room
- Lecture Gallery- BP Pati Hall

College Building: Block - C

- Departments of Dental Unit
- Dental Outpatient Department
- Laboratory- Science of Dental Materials
- Dental Operation Theatre
- Department of Dental Radiology & Imaging
- Lecture Rooms
- Tutorial Rooms
- Practical Rooms

College Facilities

Kumudini Women's Medical College is implementing a well-designed curriculum for MBBS and BDS courses approved by the Bangladesh Medical and Dental Council. It is well equipped with adequate facilities for utilizing modern and effective instructional teaching-learning methods and aids in accordance with the curriculum. The academic environment nurtures development of faculties for improving quality of education through continuous monitoring and rigorous evaluation system. Physical infrastructure within the college and its affiliated hospital provides appropriate spaces for lecture, demonstrations, tutorials, practical and bed side clinical teaching. It has well equipped laboratories, tutorial rooms for small group discussion and one spacious dissection hall with a museum. Library with wide reading room, students' common room, canteen, and fair price shop is also available.

The main facilities include:

- Lecture Halls (Four): With Multimedia Sound System, OHP, Slide Projector and Black Board/White Board.
- Tutorial rooms (Sixteen): Various departments share the tutorial room according to the class routine.
- Laboratories (Six): Histology-1, Physiology-1, Biochemistry-1, Pharmacology-1, Pathology-1 and Microbiology-1. All are provided with necessary teaching materials, equipment, microscopes, histology slides, glass wares, reagents etc.
- Dissection Hall (One): Providing arrangements of dissection on four cadavers at a time. It also has space for demonstration arrangement for 110 students divided into four groups in four corners of the big Dissection Hall.
- Museum (Four): Anatomy-1, Pathology-1, Community Medicine-1 and Forensic Medicine- 1 which contains adequate number of specimen, charts and models.
- Continued Medical Education Unit.
- Library.

Teaching Methods and Materials

Theoretical lectures are delivered in the lecture halls equipped with Laptop, Multimedia with Sound System, OHP, Slide Projector and Black/White Board. Small group teaching and discussions are held in tutorial rooms in batches. Anatomy dissection and histology classes are held batch-wise in respective rooms furnished with necessary instruments, cadavers and other teaching aids. There are also arrangements for clinical classes in the inpatient and outpatient departments in the hospital.

Methods	Description
Lectures	Four air-conditioned lecture galleries with multimedia, overhead projector, white board and sound system
Demonstration and Tutorial (small group discussions) in pre clinical and para clinical courses	Sixteen practical, tutorial, demonstration and museum rooms. This includes histology, biochemistry, physiology, pathology, microbiology, pharmacology, community medicine practical rooms and museums.
Cadaver dissection and learning in museums	Anatomy dissection room, cadaver house, anatomy museum, museum for pathology, microbiology and community medicine.
Clinical case presentation, bed side clinical teaching	Seminar room in each department, out-patient departments, students studies case taking, clinical examinations and management under supervision of clinical registers and professors. Students in small group observe surgeries in operation theatres and labour room.
Skill laboratory, with OSPE/ OSCE stations and video aided live demonstration of surgeries	A clinical OSPE/OSCE room, clinical ward equipped with manikins, models, training materials, audio visual aids and video conference room linked to operation theatre to observe surgeries with live demonstration.
Reading Room and Library	Reading room with 150 seats and the library where there are reference reading materials, journals and textbooks. Internet facility and e-library remains open from 8:00 am to 9:00 pm every day for study.

Library

Kumudini Women's Medical College library named as Prof. M. A. Jalil Library is situated on the first floor of the college building. It provides seating arrangement for 150 students at a time. It remains open from 8:00 am to 9:00 pm on all working days. Qualified librarians and their assistants run the library maintaining a disciplined, calm and quiet environment for study. There is a separate reading room for the teachers. The library has sufficient number of academic and reference books of different discipline and specialities. It also has medicine and scientific journals and periodicals including international ones.

All the books are duly indexed and catalogued. The teachers of the Medical College are able to meet the demand for ready references for ongoing research activities. Photocopying is also available at subsidized rate. In addition, the library is also equipped with computers and internet facility for browsing references and e- book, etc.

Kumudini Hospital

Rai Bahadur Ranada Prasad Shaha the founder of Kumudini Welfare Trust established Kumudini Hospital with 750 beds in 1944. Presently the hospital is having a capacity 1050 beds, organized by departments and service units. The hospital complex consists of distinct building blocks for inpatient services, outpatient services, other administrative and support services. The facilities are contributing to treatment of patients and clinical teaching. The main hospital building is a three-storied structure with a surface area of 131,300 sq ft and housing the following departments:

- Department of Surgery
- Department of Pediatrics
- Department of Ophthalmology
- Department of Radiology
- Department of Internal Medicine
- Department of Respiratory Medicine
- Department of Endocrinology
- Department of Neurology
- Department of Physical Medicine
- Department of Nephrology and Dialysis Unit
- Department of Cardiology, CCU and ICU
- Department of Oncology
- Department Obstetrics, Gynecology & Infertility
- Department of ENT
- Operation Theatre Complex
- Department of Imaging and Radiology

The outpatient departments provide services to an average of 1500 patients every day. Patients are required to pay Tk. 20 (twenty) only to meet treatment cost in the OPD and the ticket is valid for one month.

The hospital has the following service facilities :

- Department of Engineering and Support Services
- Doctor's Club and Rest Room
- Kitchen and Dining Rooms for Staff, Doctors and Patients
- Central Store
- Clinical Laboratory and Research Centre

Following are the departments with number of beds available:

Sl No.	Name of the Department	Number of Bed
1.	Medicine	180
2.	Surgery	180
3.	Gynecology & Obstetrics	164
4.	Eye	120
5.	ENT	20
6.	Pediatrics	110
7.	Orthopedics	86
8.	Diarrhoea	22
9.	Cardiology	36
10.	Dental	22
11.	ICU	08
12.	Poisoning	06
13.	Tuberculosis	14
14.	Post operative care unit	26
15.	Nephrology	18
16.	Oncology	12
17.	Cabin Bed	26
Grand Total		1050

Operation Theatres

SI No.	Name of Operation Theatre (OT)	Number of OT	Remarks
1.	Surgery OT	2	including 4 operation table facility
2.	Gynae OT	2	including 3 operation table facility
3.	ENT OT	2	including Operating Microscope facility
4.	Orthopedic OT	1	including 2 operation table and C ARM facility
5.	Eye OT	3	including 3 operation table and Phaco- surgery facility
6.	Minor OT	1	
7.	Dental OT	4	4 operation rooms

Accommodation

Kumudini Women's Medical College provides accommodation for all students in Hostels as well as residential facilities for the teachers and ancillary staffs.

1. Teachers' Residential Quarters

Nine two-storied buildings are located in the campus for the teaching staffs and a two storied building for the accommodation of junior teachers. Moreover, there are residential facilities for guest teachers who regularly come to this institute for teaching and examination purposes. An eight storied building is under construction to accommodate senior teachers in the campus.

2. Staff Quarters

Residential staff quarters for permanent and ancillary staff are available in the campus.

3. Students Hostel

The college is fully residential and has adequate residential accommodation for all the enrolled students. It has separate dining rooms, study rooms and club rooms. There are five hostels with a total of 1011 seats. One of the hostels is for the foreign students with refrigerator facilities. A modern hostel complex with six buildings are under constructions with shall accommodate 1440 students.

Course Curriculum: MBBS

Duration: 5 years Bachelor of Medicine and Bachelor of Surgery with additional one year internship training.

Examinations:

- The MBBS degree requires 5 years of academic course followed by one year of internship in the affiliated hospital.
- Four Professional Examinations are conducted by the University of Dhaka.
- The Professional MBBS Examinations (1st, 2nd, 3rd & Final Professional) occur either on first week of May or November in each year as per new curriculum.
- Each subject under the course is divided into certain number of items and cards examination. To appear at the professional examinations all students have to complete the assigned cards.
- Pass mark for University examination for written, oral and practical / clinical examinations is 60% individually.
- Student passing in the regular MBBS Examination will be eligible to obtain honors (85% marks) and place (up to 10th place) in order of merit.

Local Examination:

After completion of cards students in pre and para clinical subjects have to appear in term examinations periodically. Similarly, clinical students have to complete items followed by ward completion examinations. Finally, before placement for university professional examinations all students have to appear in pre-professional examination in each phase.

End-course Examination:

The University of Dhaka conducts four professional examinations both for the 5 year MBBS course and 5 years BDS Course.

Field Activities:

The 3rd yr MBBS students have to complete one month COME (Community Oriented Medical Education) as follows:

- RFST (Residential Field Site Training) for 10 days.
- Day Visit (at least 8 visits to be performed) for 10 days.
- Study Tour (to observe different national health related organizations) for 10 days.

University (Professional) Examination:

- 10% marks of written examination of each paper for each subject is allocated for formative assessment.
- 20% marks are allocated for MCQ for each paper. There are separate answer scripts for MCQ examination.
- 70% marks are allocated for SAQ (Short Answer Question) in all subjects (except in Community Medicine) for each paper. Final professional OSPE examinations are conducted by University of Dhaka on the same date and time.

Schedule and Marks of the Professional MBBS Examinations:

Examinations	Timing	Subjects	Marks
First professional MBBS	At the end of one and half year	Anatomy Physiology Biochemistry	500 Marks 400 Marks 400 Marks
Second professional MBBS	At the end of one year	Community Medicine Forensic Medicine	300 Marks 300 Marks
Third professional MBBS	At the end of one year	Pharmacology & Therapeutics Pathology Microbiology	300 Marks 300 Marks 300 Marks
Final professional MBBS	At the end of one and half year	Medicine: (Internal Medicine, Pediatrics, Dermatology, Psychiatry,) Surgery: (General Surgery, Orthopedic, Eye, ENT) Gynecology and Obstetrics	500 Marks 500 Marks 500 Marks
		Total	4300 Marks

Internship: MBBS

Internship training is an integral part of medical education and accredited by the Bangladesh Medical and Dental Council (BM&DC). After passing the final MBBS examination of the University of Dhaka, a graduate has to undergo one year internship in Kumudini Women's Medical College Hospital. After successful completion of internship all interns will be eligible to receive registration from BM&DC.

Course Curriculum: BDS

Duration: 5 years Bachelor of Dental of Surgery with additional one year internship training.

Examinations

- Four Professional Examinations are conducted by the University of Dhaka.
- The Professional BDS Examinations (1st to 4th) are held either on May or November of each year.
- Each subject under the yearly course is divided into certain number of card examinations. To appear at the professional examinations all students have to complete assigned cards in particular year.
- Pass mark for University examination for written, oral and practical / clinical examinations is 60% individually.
- Student passing in the regular BDS Examination will be eligible to obtain honors (85% marks) and place (up to 10th place) in order of merit.

Schedule and Marks of the Professional BDS Examination:

Examinations	Duration	Subjects	Marks
First Professional BDS (1 st phase)	At the end of one and half year	Sub 1: (Anatomy & Dental Anatomy) Paper-I General Anatomy Paper-2 Dental Anatomy	[Total=600] 300 300
		Sub 2: (Physiology, Biochemistry & Science of Dental Materials) Paper-I Physiology & Biochemistry Paper-2 Science of Dental Materials	[Total=600] 300 300
Second Professional BDS (2 nd phase)	At the end of one year	Sub 3: General & Dental Pharmacology Sub 4: Pathology & Microbiology	300 300
Third Professional BDS (3 rd phase)	At the end of one year	Sub 5: Medicine Sub 6: Surgery Sub 7: Periodontology & Oral Pathology	300 300 300
Fourth Professional BDS (Final phase)	At the end of one and half year	Sub 8: Oral & Maxillofacial Surgery Sub 9: Conservative Dentistry & Endodontics Sub 10: Prosthodontics Sub 11: Orthodontics & Dentofacial Orthopedics Sub 12: Pedodontics & Dental Public Health	300 300 300 300 300
			Total=4200

Internship: BDS

After passing the final Professional BDS examination of the University of Dhaka, a graduate has to undergo one year internship in Kumudini Women's Medical College Hospital. Internship program is conducted as per Bangladesh Medical & Dental Council (BM & DC) prescribed rules. After successful completion of internship all interns will be eligible to receive registration from BM&DC.

Administrative Authority

A. Governing Body

It is the highest body to take decision related to college and composed of:

Chairman

Members :

- Representative of Vice Chancellor of University of Dhaka
- Dean of Faculty of Medicine, University of Dhaka
- Representative of Ministry of Health & Family Welfare
- Member Secretary

B. Academic and Disciplinary Council

Academic Council comprising teachers of the college and headed by the Principal deliberates and makes recommendation in order to upgrade the curriculum and maintain good academic atmosphere in the college.

Disciplinary Council investigates and recommends necessary action to be taken for any act of indiscipline in the campus.

C. Principal and Administration

Principal along with Vice Principal, Chief of Dental Unit and Academic staff take care of all the curricular and extra curricular activities to keep up with the high standards of medical education and professional development of future doctors.

Academic Course: MBBS & BDS

The college offers 5 years MBBS course and 5 years BDS course as approved by Bangladesh Medical & Dental Council (BM & DC) leading to MBBS and BDS Degree of the University of Dhaka. The content and design of the course, subjects, lecture classes, tutorials and laboratory/ practical classes are approved by University of Dhaka in accordance with the curriculum laid by the Bangladesh Medical and Dental Council (BM & DC).

Quality Assurance and Professional Development

As per the guidelines of Government Quality Assurance Scheme (QAS) in Medical Education an Institutional Quality Assurance Body (IQAB) has been functioning.

Purpose and Aim of QAS

The following bodies carryout the functions for QAS through:

1. Academic Council

- The highest academic body of the college convenes quarterly meetings to discuss and decide on all academic issues, development in academic proficiency, curricular and co-curricular activities.
- It also convenes emergency meetings when necessary to resolve any urgent issue. It reviews recommendations for future growth of the institute.
- It oversees and supports well-being of students and staffs in the campus.

2. Phase Coordination Committees

- There are four phase coordination committees for each of MBBS and BDS courses.
- Committees are responsible for guiding, monitoring and evaluation of the courses in compliance with the curriculum.
- It helps the Principal in all academic activities.

3. Faculty Development and Review Committee

- Conduct review meetings for quality improvement in educational program and professional development.
- Take lead in organizing continued medical education (CME), organize workshops for professional development, training on medication and skill upgrading.

Information for the students

Eligibility for Admission:

Candidates who have passed SSC & HSC examination in Science group with Physics, Chemistry and Biology from any recognized Board/University of Bangladesh with a combined grade point average of 9.00 shall be eligible for admission. But the grade average for each of the examinations must not be less than 3.50 and in HSC grade point in Biology must not be less than 3.50. Students having O level & A level qualifications should apply with certificate of equivalence issued from Director General of Health Service (DGHS). Students having passed SSC or equivalent examination 02 (two) sessions before, are not eligible to sit for the admission test. Married students are not eligible to apply for admission.

The criteria for eligibility and application modalities may vary with government admission policy in MBBS and BDS course for any particular session. Examination for admission is conducted by DGHS, Govt. of Bangladesh.

Documents to be submitted by the candidate

All enclosures must be attested by class 1 Gazetted officer.

- Photocopy of original/provisional SSC & HSC/ equivalent examination certificates.
- Photocopy of original/provisional SSC & HSC/ equivalent examination mark sheets.
- Photocopy of original/provisional SSC & HSC/ equivalent examination testimonials.
- Certificate of sports/social work or any other extracurricular activities.
- Three copies of recent passport size photographs.

Original copies of the documents must be produced at the time of admission and all the original documents shall be retained by the college until graduation. After primary selection and publication of merit list a waiting list will be declared. Students from waiting list will be admitted as per vacancies according to waiting merit. Result of the final selection will be published in the specified notice board. Every applicant provisionally selected for admission shall be medically examined by a medical board and must be declared fit before admission.

Charge and Fees for Admission

The selected candidate must pay necessary fees as determined by the management. Payment must be made within the specified date and time failing which claims for admission will be forfeited and the vacancies will be filled in by the next deserving candidate from the waiting list.

Attendance Rules

Every student is required to attend all classes and clinical teaching in the college and hospital punctually. All students are required to maintain 100% attendance in lecture, practical and ward placement. Any student securing less than 75% attendance in any of the areas will not be eligible to appear at university examination. Failing which, the student will be required to attend a further course until the requirement is fulfilled.

Accommodation Rules

The college is fully residential. All students admitted to this college must reside in the allotted students' hostel. The Principal in special cases may allow any student to reside outside with their parents or guardian for a short duration. Any change of guardianship or changes of lodging by any student must be reported forthwith to the college authority. It is compulsory that students take their food in the hostel mess.

Disciplinary Rules

- Students must maintain discipline inside the complex.
- Raising slogan, shouting, parading in procession are all strictly prohibited.
- Addiction to drug and alcohol abuse amounts to moral turpitude and such offenders are liable to expulsion from the college.
- Students are required to observe order and discipline strictly at all times in the college.
- Political activities are strictly prohibited.
- Students must behave properly with staff, employees of the college/hostel, acts of misbehavior are liable to disciplinary action.
- At the time of admission both the student and their respective guardian will have to sign a bond agreeing to abide by the rules and regulations of the college.
- Strict cleanliness is to be maintained all through the campus. Students are to refrain from plucking flowers and damaging fruit plants.
- Students are not to disturb or interfere in the affairs of other institutions within the complex.

Academic Standard/Standing

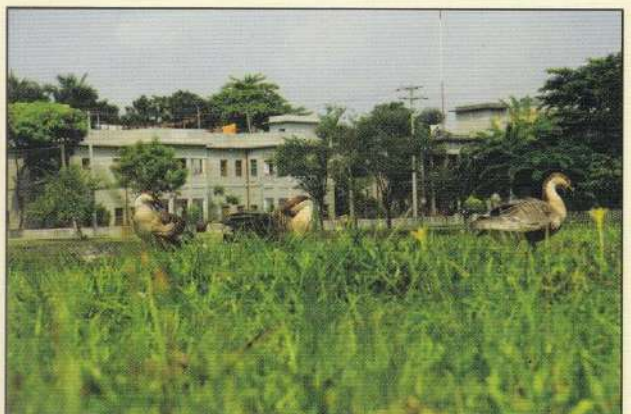

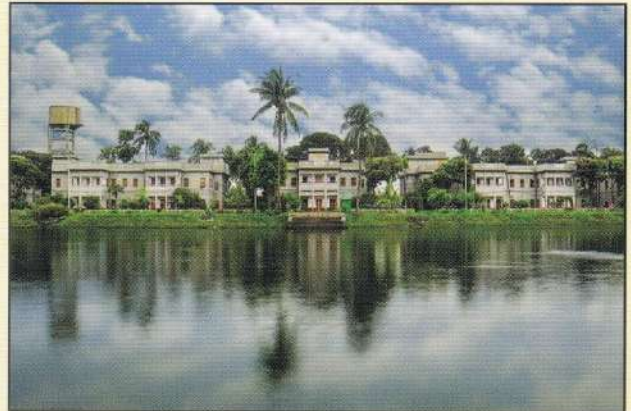

Students are expected to maintain a consistently high standard in their academic work. Course evaluations will be made through regular items, card final examinations, periodic class test, quizzes, assignments and mid/end term examinations conducted by individual departments. The mid/end term tests shall include written (combinations of MCOs and short-questions), orals, practical OSPEs and OSCEs. The results shall be recorded in the students' progress report cards/logbook. No student shall be allowed to sit for the professional MBBS examination of the university without a minimum of 75% attendance in classes held, securing at least 60% marks in class assignments and periodic in course examinations thus demonstrating satisfactory attitude, behavior and conduct.

Extracurricular Activities

Students are encouraged to participate in extracurricular activities for the promotion and development of individual talents, physical and mental health. The college provides such activities through Student Welfare Committee by arranging week long literary and culture festival like staging of drama, debates, indoor and outdoor games. Moreover, humanitarian services such as blood donation, free clothes distribution amongst the distressed during natural calamities and financial donation to affected students/people for their treatment are encouraged.
